## **Successful Vaccine Protocols and** **How We Can Help**

- Vaccine Update!
- Cost of Vaccinating for Scours - a Case Study
- Speak one-on-one with one of your veterinarians about your farm's specific plan

### **Kirkton Veterinary Clinic Student Experience Program**

We at KVC are committed to the training and mentorship of student veterinarians interested in food animal medicine and have continued the opportunity for current DVM students to assist your veterinarian during fall cow and calf processing.

Receive 25% off your professional services when you book your processing call during the following weeks:

October 24-28

November 21-25

\*more weeks may become available if producer or student demand increases

Call the clinic today for more information or to book your call.
